

Record of Observed Procedures

Purpose:

Learners must observe treatments being carried out on patients
Learners must observe 20 procedures in total – 10 in botulinum toxin and 10 in dermal fillers.
This document serves as evidence of learner observation of these treatments and will be submitted to the
awarding body at the time of EQA.
Each observed case must be confirmed by signature of the trainer, on the day it is logged

DELEGATE:

BOTULINUM TOXIN OBSERVATIONS
