FOREWORD

Foreword from Dr Lara Watson & Dr Priyanka Chadha

“The rationale for setting up Acquisition Aesthetics was very simple – the aesthetics training industry simply wasn’t meeting the mark for what practitioners and patients needed to obtain exceptional results and ensure patient safety.

We have spent years collating an expert faculty with backgrounds in plastic surgery, dentistry and nursing with additional experience of teaching to the highest level. We have combined these professionals with respected experts in the field to comprise a team of trainers to deliver what we believe is far above the gold-standard. Train with us and you’ll undoubtedly be head and shoulders above many others.”

Priyanka Chadha Lara Watson

DR PRIYANKA CHADHA

MBBS(LOND), BSC (HONS),
DPMSA(LOND), MRCS(ENG),
MSC(LOND)

Consultant Plastic Surgeon, mother of three and co-founder of the award winning training academy, Acquisition Aesthetics, Dr. Priyanka (Priya) Chadha is a leading expert in facial anatomy, aesthetic medicine and plastic surgery.

As an advanced trainer, she educates practitioners both nationally and internationally in hands-on injectable treatments in addition to running her own successful clinic in the heart of London. Her expertise is widely recognised, with numerous publications in aesthetic medicine and plastic surgery, and she has led multiple national clinical trials.

A graduate of Imperial College London, Priya earned distinctions in medicine and surgery before ranking first in the UK for Surgical Training among 1,500 applicants. She later secured the top national position for a Plastic Surgery Registrar post.

With a Masters in Surgical Education and Training, Priya is deeply passionate about teaching and has received multiple national awards for her contributions to medical education. She also holds a degree in Medical Ethics and Law and has delivered hundreds of educational programs and lectures and received more than 50 national and international awards for her work. As a mother of three, Priya is a strong advocate for work-life balance in surgery, proving that with organisation, dedication, and strategic multitasking, women can thrive in a dynamic, portfolio career within the surgical and non-surgical fields.

DR LARA WATSON

BM, BSC (HONS), BMEDSCI,
MRCS(ENG), BDS(HONS)

Dr. Lara Watson is passionate about empowering healthcare professionals to channel their inner creativity through the art of facial aesthetics. As a dual qualified doctor and dentist, she works as a maxillofacial surgery Registrar in the Oxford deanery. Having graduated in medicine with additional degrees in advanced human anatomy and research, Lara went on to achieve a Bachelor of Dental Surgery with Honours at King's College, London.

With full membership to the Royal College of Surgeons, Dr. Watson teaches at various surgical skills workshops for the college and the wider surgical community, and was commended for founding and co-ordinating an international undergraduate surgical teaching programme.

Through her dual qualification and background in head and neck surgery, Dr. Watson's extensive understanding of facial anatomy enables her to deliver the highest standard of theoretical teaching in the principles of safe practice in facial aesthetics.

As a Key Opinion Leader for the global pharmaceutical group Galderma, Dr. Watson brings her experience of performing on the international stage to enhance the delivery of the theoretical and practical training standards at Acquisition Aesthetics.

Her entrepreneurialism and experience in the aesthetics industry allows Dr. Watson to provide delegates with the knowledge and skills required to succeed in today's competitive and ever-evolving industry whilst delivering beautiful results to patients.

OUR UNIQUE VALUE OFFERING

Why train with our multi-award-winning aesthetics training academy with the UPP?

Practical Hands-On Training

There is no substitute to learning and injecting on real live patients. Under our guidance and supervision, this will form the basis of all of your education.

Experienced Trainers

Learn from global leading experts in the field of medical aesthetics, who bring a wealth of knowledge and practical insights to the training.

Comprehensive Curriculum

Our course covers a wide range of topics, including Foundation and advanced injectable techniques, masterclasses, patient consultation and assessment, and complications management.

Increase Patient Safety

By adhering to stringent safety protocols and training, we ensure that you can offer superior care, minimising and effectively dealing with risks and enhancing patient outcomes.

JCCP Registered

Trusted Accreditation: Our program is recognised and regulated by the Joint Council for Cosmetic Practitioners, ensuring our training meets the highest industry standards.

Awarding Body - OTHM

Globally Recognised Certification: The diploma is awarded by OTHM, providing you with a qualification that stands out worldwide.

Stringent Regulations

Compliance and Safety: Our curriculum is designed to comply with the most stringent regulations, ensuring that you can confidently satisfy necessary standards of practice and improve patient safety.

INTRODUCING THE UPP

At Acquisition Aesthetics, our goal is for delegates to attain the **highest** outcomes in aesthetic practice and that is why we have developed and launched the **Ultimate Practitioner Pathway® (UPP)**.

This uniquely continuous programme carries delegates from novice to expert through a series of step-by-step courses which provide learners with skills in a broad range of leading non-surgical aesthetics techniques to ensure they emerge fully competent, certified and confident in achieving success. In this way, the UPP with Acquisition Aesthetics is one of the best career investments an aspiring aesthetician can make, ensuring they are compliant with the changing regulatory landscape and proficient in the treatments that define our modern industry.

BACKGROUND & RATIONALE

Background

From our extensive experience in Aesthetics education, we understand the importance of a pathway to follow for the best outcomes and treatment options for your patients, and building a business.

The UPP was developed to enable you, our delegates to become a fully rounded and capable practitioner for any treatment scenario and to develop the pathway for your own aesthetics career goals.

Rationale

The UPP is designed to elevate the training of non-surgical aesthetics practitioners. It begins with **Core Training**, which not only provides essential skills but also hands-on experience in basic injectable techniques, facial anatomy, patient assessment, and complication management.

This practical approach instills confidence and competence in practitioners. This is followed by **Future Proofing (Level 7)**, which offers advanced techniques and mentoring through extensive academic coursework and practical sessions, ensuring practitioners are well-prepared for higher-level challenges in aesthetic medicine. **Up-skilling** through specialised masterclasses enhances expertise in advanced procedures and business strategies, broadening practitioners' service offerings.

The pathway also includes **Diversifying**, focusing on regenerative medicine and skin treatments such as microneedling & exosomes, polynucleotides, Sculptra, and skin boosters.

The final step, **Business Readiness**, is a crucial component that equips practitioners with essential business and marketing skills through e-learning modules, video lectures, handbooks, and webinars. This comprehensive approach ensures that practitioners are not only clinically proficient but also capable of successfully managing and growing their aesthetic practice, enhancing industry patient safety and care standards.

Earn **320 CPD points** by completing the Ultimate Practitioner Pathway®.

THE PATHWAY

UPP STAGES

EARN 320 CPD POINTS BY COMPLETING THE ULTIMATE PRACTITIONER PATHWAY®

Step 1 Core Training

- Foundation Course
- Advanced Course

Kickstart your aesthetics training pathway with your Foundation & Advanced training courses, which provide you with the fundamental skills and understanding to administer core aesthetics procedures to patients

Step 2 Future- Proofing

- Level 7 Diploma

Protect yourself from the rapidly evolving legislation around aesthetic medicine by attaining the Level 7 Diploma. After completing steps 1-3 of our pathway, practitioners are easily able to complete the practical and academic requirements for this esteemed industry certificate

Step 3 Up-Skilling

- Lip Augmentation Masterclass
- Tear Trough Masterclass
- Complications Masterclass

Build on your core training with our Masterclasses, equipping you with greater expertise in high-demand treatments that require specialist training in order to perform successfully

Step 4 Diversifying

- Microneedling & Exosomes Training
- Polynucleotides Course
- Sculptra & Skinboosters

Diversify your portfolio and maximise revenue opportunities by training in our Cosmetology Course bundle, which includes microneedling & exosomes training, our polynucleotides course, and the highly sought-after Sculptra & skinboosters training

Step 5 Business- Ready

- Business & Marketing Training

The aesthetics industry is competitive. Give your career a head-start by gaining first-hand knowledge and training in how to launch a successful aesthetics career or business with our business & marketing course

STEP 1: CORE TRAINING

Step 1 Core Training (Part 1) - Foundation Course

The first steps into learning the core skills in aesthetic medicine.

Our CPD-certified* Botox® and Dermal Fillers aesthetics course is designed and structured especially for beginners. The course will provide you with the knowledge and skills necessary to perform foundation aesthetic procedures safely and with confidence. After theoretical teaching, our expert trainers will guide you through the techniques of delivering Botulinum Toxin (Botox®) and dermal fillers on live models.

You will learn

	TOXIN	DERMAL FILLER	LECTURES	E-LEARNING
FOUNDATION	FROWN LINES (Glabella complex)	FOUNDATION MIDFACE (CHEEKS AND NASOLABIAL FOLDS)	FOUNDATION ANATOMY	TREATMENT VIDEOS
	FOREHEAD LINES	LIPS	FOUNDATION TECHNIQUES	PRE-READING LECTURES
	CROW'S FEET	MARIONETTE LINES	ASSESSMENT AND TREATMENT PLANNING	
		INTRODUCTION TO CANNULA	HOW TO GET STARTED	

Foundation Training FAQs

When can I complete this stage?

At the very beginning of your journey into aesthetic medicine and before you complete your Mentoring Sessions.

Time frame?

1 day course with pre reading and learning videos to be completed beforehand

What do I need to do to complete this stage?

Choose from a variety of dates to attend this training course- the rest we'll take care of!

You Will Also Learn

- ⊗ Protocols for the management of complications including the use and reconstitution of Hyaluronidase.
- ⊗ Links with leaders of industry (online pharmacies, insurance providers, patient management software systems and more).
- ⊗ Template consent forms and medical history forms.
- ⊗ Template patient information leaflets.

Lifelong Access & Support

Delegates are given lifelong access to a wealth of online learning materials, including instructional videos, as well as a practical guidebook. Our team of trainers are highly knowledgeable and experienced, and will provide invaluable industry insight throughout the course.

All delegates that successfully complete a training course with us will receive an invitation to the exclusive Acquisition Aesthetics 'Graduates Group'. A unique space where our graduates can seek guidance from our faculty regarding cases or complications, as well as crowd-source support from their peers and fellow graduates.

"Everything you taught me has really stayed with me and seen me through my first hectic year. I truly believe that the training you provided is second to none.

I often read back on the books you provided and find them helpful. Building a business has been hard but I honestly couldn't have done it without your input."

A. Matthews - AA Graduate

Step 1 Core Training (Part 2) - Advanced Course

Continuing with your core training in aesthetic medicine.

The Advanced Course in Toxin and Dermal Fillers provides aesthetic practitioners with the opportunity to enhance their existing knowledge and acquire the techniques necessary to perform advanced non-surgical aesthetic treatments. A natural progression from the Foundation course, this training day offers a greater focus on practical injection training, including the treatment of functional issues such as hyperhidrosis, facial contouring methods, and the use of the microcannula.

You will learn

	TOXIN	DERMAL FILLER	LECTURES	E-LEARNING
ADVANCED	LOWER FACE	ADVANCED MIDFACE	ADVANCED ANATOMY AND FACIAL ASSESSMENT	TREATMENT VIDEOS
	MASSETERS (JAW SLIMMING)	TEMPLES	ADVANCED TECHNIQUES	PRE-READING LECTURES
	NECK LIFT	JAW CONTOURING	COMPLICATION MANAGEMENT	
	HYPERHIDROSIS	CHIN	HOW TO COMBINE TECHNIQUES AND MAXIMISE OUTCOME	

Advanced Training FAQs

When can I complete this stage?

Following completion of a Foundation course

Time frame?

1 day of practical training and lectures with pre reading, pre learning and online training videos to complete beforehand

What do I need to do to complete this stage?

Choose from a variety of dates & attend

You Will Also Learn

- ⊗ Protocols for the management of complications including the use and reconstitution of Hyaluronidase.
- ⊗ Links with leaders of industry (online pharmacies, insurance providers, patient management software systems and more).
- ⊗ Template consent forms and medical history forms.
- ⊗ Template patient information leaflets.

Lifelong Access & Support

Delegates are given lifelong access to a wealth of online learning materials, including instructional videos, as well as a practical guidebook. Our team of trainers are highly knowledgeable and experienced, and will provide invaluable industry insight throughout the course.

All delegates that successfully complete a training course with us will receive an invitation to the exclusive Acquisition Aesthetics 'Graduates Group'. A unique space where our graduates can seek guidance from our faculty regarding cases or complications, as well as crowd-source support from their peers and fellow graduates.

"I could not believe how professional the course was. I was lucky enough to be taught by Dr Antonios and he was amazing. I am thoroughly satisfied with the course and would recommend it to everyone interested in a career in aesthetics. I will definitely be completing another course here soon!"

P.Iqbal – Advanced Graduate

STEP 2: FUTURE PROOFING

LEVEL 7 DIPLOMA

WHY UNDERTAKE STEP 2?

The aesthetics industry regulation is uncertain and it shouldn't be for delegates investing in their career. Protect yourself from the rapidly evolving legislation by enrolling on and working towards the **Level 7 Diploma with Step 2 of our UPP** . .

Background

A regulatory framework was created collaboratively between the British College of Aesthetic Medicine (BCAM), the British Association of Cosmetic Nurses (BACN), the British Association of Dermatologists (BAD), the British Association of Aesthetic Surgeons (BAAPS) and the British Association of Plastic, Reconstructive and Aesthetic Surgeons (BAPRAS). The two independent bodies enforcing this framework are the Joint Council for Cosmetic Practitioners (JCCP) and the Cosmetic Practitioners' Standards Authority (CPSA.)

Rationale

The inception of the Level 7 Diploma in Clinical Aesthetic Injectable Therapies aimed to establish uniformity in the caliber and curriculum of training accessible to non-surgical aesthetics practitioners. The Level 7 Diploma in Clinical Aesthetic Injectable Therapies has evolved into a pivotal qualification, now dedicated not only to standardising training quality and content but also to prioritising comprehensive knowledge among our delegates.

Our primary goal is to equip practitioners in the non-surgical aesthetics sector with the **highest caliber of expertise**, ensuring not only excellence in practice but also paramount safety within the industry.

As a result, stricter overarching regulations are being implemented, narrowing the field of practitioners eligible to meet the required standards for practice to those possessing appropriate qualifications. Consequently, this enhances patient safety by ensuring that only adequately qualified individuals are permitted to provide care.

AWARDING BODY

Who is the awarding body?

The awarding body, OTHM, is a renowned institution dedicated to providing internationally recognised qualifications. Their qualifications are carefully crafted to ensure relevance and quality, aligning with industry standards and best practices. OTHM's rigorous assessment processes guarantee the credibility and integrity of our certifications, earning trust from learners, employers, and educational institutions alike.

By partnering with OTHM, we gain access to a wealth of expertise and resources, enabling us to deliver high-quality education and training programs. OTHM's accreditation adds significant value to our diploma, enhancing its credibility and recognition within the industry.

With OTHM as our awarding body, learners can be confident in the quality and relevance of their qualifications, setting them on the path to success.

Which standards does the qualification meet?

The Level 7 Diploma in Clinical Aesthetic Injectable Therapies meets rigorous standards, including those set by the Joint Council for Cosmetic Practitioners (JCCP). These standards are paramount in ensuring that practitioners possess the necessary skills and knowledge to provide safe and effective non-surgical aesthetic procedures. With certification from OTHM, our diploma aligns with industry best practices and regulatory requirements, providing learners with a qualification that is recognised and respected within the field.

Who is eligible to enrol?

Doctors, Dentists, Dental Therapists, Nurses and Prescribing Pharmacists registered with the relevant medical council.

What is needed to enrol on the diploma?

- Valid GMC/GDC/NMC/GPhC/RPS pin number or international equivalent.
- English as a first language or International English Language Testing System (IELTS) score of 7.0 or more.
- International students may be accepted if an equivalent level of education can be demonstrated - please contact our course experts for further discussion.

How long will it take to complete

Although the official completion deadline is set at 24 months, our observation indicates that delegates typically finish anywhere from 6 to 18 months after beginning their learning journey. The duration of training is subject to individual circumstances, such as employment and family commitments. We are committed to crafting a flexible study program tailored to accommodate your existing schedule.

LEVEL 7 BENEFITS

The Level 7 qualification not only equips delegates with an advanced understanding in several vital aspects of non-surgical aesthetics, encompassing facial anatomy, skin physiology, and dermatological indications/contraindications of treatment, but also integrates our benefits of embedding knowledge. Additionally, delegates will acquire the skills to conduct thorough patient consultations, including a systematic facial assessment. They will deepen their knowledge of injection techniques and enhance their proficiency in managing complications.

As industry regulations are expected to strengthen in the foreseeable future, the Level 7 Diploma is poised to be acknowledged as the minimum standard of training from both a legal and ethical standpoint. By pursuing Level 7 training with us, delegates are proactively preparing for forthcoming regulatory changes, ensuring compliance with the latest guidelines and aligning with the principles of practice upheld by regulatory bodies such as the GPhC, RPS, GMC, GDC, and NMC.

Train under industry experts and benefit from their unique tips and insight. Collect **200 CPD points/hours** towards your annual revalidation.

“

THE LEVEL 7
QUALIFICATION
OPENS DOORS TO
DIVERSE CAREER
OPPORTUNITIES

Moreover, the Level 7 qualification enhances **employability prospects** significantly. Employers seek fully qualified cosmetic practitioners for their clinics. Upon completion, delegates will possess a logbook documenting a minimum of 40 recorded procedures, showcasing their proficiency to prospective employers. This hands-on experience further solidifies their readiness to excel in the field of non-surgical aesthetics.

Furthermore, achieving the Level 7 qualification opens doors to diverse career opportunities, facilitating a better work/life balance. Graduates can explore self-employment ventures, establish their own clinics, or pursue roles in teaching and training within the field. This flexibility empowers individuals to carve out fulfilling careers tailored to their personal aspirations and lifestyle preferences.

Mentoring Sessions

This stage of the Level 7 Diploma is designed to meet the JCCP guidelines for practical experience and to help you complete your portfolio. Your mentoring sessions also provide the platform for your direct observational procedures to complete your logbook.

Key Features

➤ **DOPS**

- A supervision and feedback framework for learners to receive feedback on their direct interaction with patients and consultation skills. DOPS examines your skills as a clinician, your ability to talk to patients in a professional manner, and your ability to practise safely.

➤ **Skills in facial assessment and planning**

- A broad overview of the assessment process for patients, focusing on all facets of their concerns and appearance. Working with our experienced faculty to develop a comprehensive treatment plan,
- Develop skills in communication and discussions surrounding treatment that you can take to your own clinical practice.
- Learning the nuances of facial assessment and how this impacts a treatment plan.

➤ **Development of skills**

- Hone skills and learn from different trainers about the best way to approach certain treatments.
- Practical practice of learnt skills from the foundation or advanced courses attended.
- Learn through peer observation of ways to approach different scenarios or plans.

Clinical Development Workshop

The Clinical Development Workshop is a key component of the Level 7 Diploma, designed to refine and enhance your clinical skills as an aesthetic practitioner.

This workshop offers a hands-on, immersive experience where you will perform neuromodulator (toxin) and dermal filler treatments with precision and confidence under expert supervision.

During the workshop, you will engage in comprehensive patient assessments, ensuring that you are able to provide the highest quality of care. You will develop tailored treatment plans and execute these plans in a controlled, professional setting. The workshop also emphasises effective documentation and photography techniques, essential for professional case studies and marketing materials

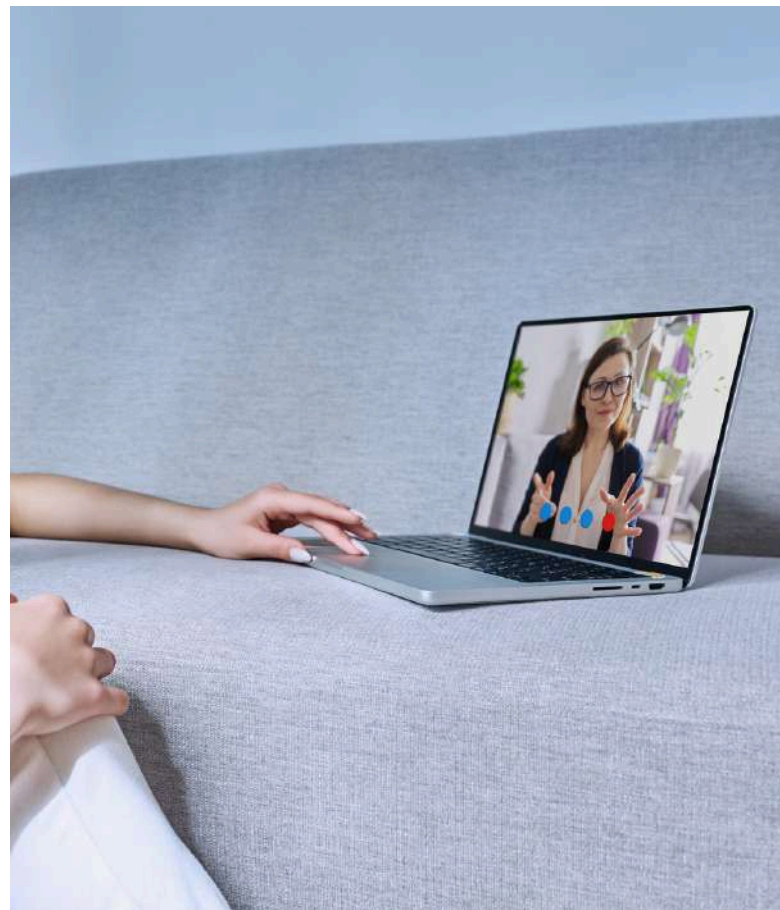

Key Features

- ① **One-to-one training**
 - You will be trained individually by one of our experienced faculty, and able to focus your training on one patient from start to finish
- ② **Develop individualised treatment plans and skill development**
 - As you will be encouraged to bring your own model to the clinical development workshop, you can choose which particular area of neurotoxin or dermal filler you would like to develop skills or experience in.
 - Our faculty will support your treatment planning to develop outstanding results for your patient.
- ③ **Case study provision**
 - The cases used on the clinical development workshop can be used for your case study in your academic portfolio

Diploma Sessions

The Diploma Sessions are a core component of our Level 7 program, designed to enhance pastoral care, maximise learning, and ensure the effective embedding of knowledge. These live sessions, conducted via Zoom, are exclusively available to Level 7 Delegates and are led by our experienced Level 7 team, twice a month.

Key Features

➤ **Pastoral Care:**

- Providing a supportive environment where delegates can share and address personal and academic concerns.
- Facilitating a sense of community and belonging among delegates through regular interactions.

➤ **Maximising Learning:**

- Discussions led by esteemed practitioners and our team, covering a range of topics, including cases, complications, and academic papers.
- Comprehensive review and guidance on coursework and assignments to deepen understanding.
- Open Q&A sessions to address any questions.

➤ **Embedding of Learning:**

- Integration of the latest developments in the aesthetics industry to keep delegates informed and engaged.
- Practical application of theoretical knowledge through case discussions and problem-solving activities.
- Continuous reinforcement of learning through interactive and dynamic sessions.

Benefits

- ③ **Enhanced Learning Outcomes:** By engaging with real-world cases and current industry trends, delegates can contextualise their learning and retain information more effectively.
- ③ **Comprehensive Support:** Combining academic guidance with pastoral care ensures delegates are well-supported in all aspects of their training.
- ③ **Professional Development:** Exposure to leading practitioners and the latest industry insights prepares delegates for successful careers in aesthetics.

The Diploma Sessions provide an invaluable platform for Level 7 Delegates to enhance their learning, receive personalised support, and stay updated with the latest advancements in the aesthetics field. Through these live, interactive sessions, we aim to foster a well-rounded educational experience that equips our delegates with the knowledge and skills necessary for their professional journey.

Check-in Sessions with Level 7 Delegate Lead

Our Check-in Sessions with the Level 7 Delegate Lead are designed to provide comprehensive pastoral care to support the personal and professional development of our delegates. These sessions are an integral part of our commitment to ensuring the well-being and success of each participant in our Level 7 program.

Key Features

- ① **Personalised Support:**
 - One-on-one check-ins to address individual concerns and provide tailored guidance at your convenience.
 - Support for balancing academic workload with personal and professional commitments.

- ② **Emotional Well-being:**
 - A safe and confidential space to discuss any personal or emotional challenges.

- ③ **Academic Guidance:**
 - Assistance with coursework, assignments, and understanding complex topics.

- ④ **Continuous Monitoring:**
 - Regular follow-ups to track progress and adjust support strategies as needed.
 - Ensuring delegates stay on track with their academic and professional development.

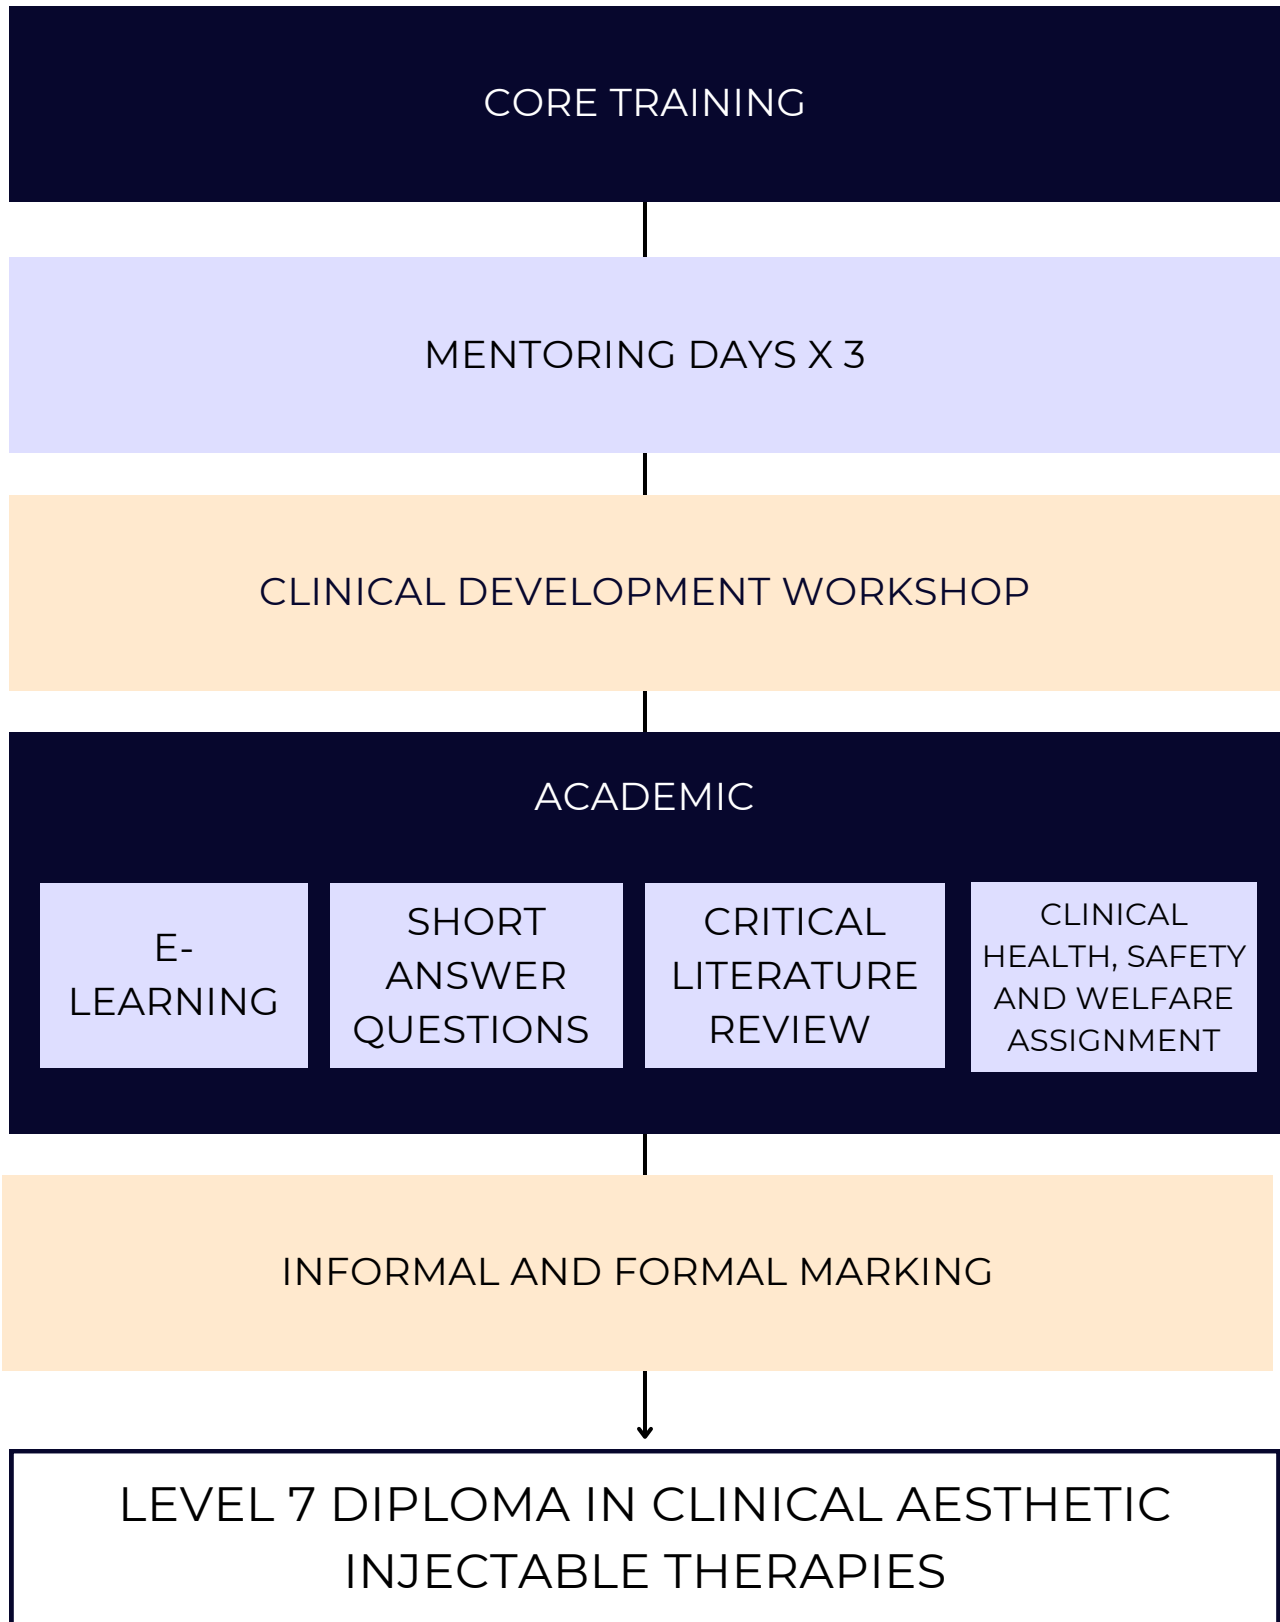

Benefits

- Holistic Development: Focus on the overall well-being of delegates, addressing both academic and personal needs.
- Enhanced Learning Experience: Providing a supportive environment that fosters effective learning and growth.
- Increased Success Rates: Helping delegates overcome obstacles and achieve their full potential in the aesthetics industry.

The Check-in Sessions with the Level 7 Delegate Lead are a vital component of our pastoral care initiative, ensuring that every delegate receives the support and guidance they need to thrive in their studies and future careers. Through these sessions, we aim to create a nurturing environment that promotes excellence and well-being.

THE LEVEL 7 ROADMAP

Practical Portfolio

Logbook facility to record all 40 procedures (20 observed and 20 performed) in toxin and dermal filler modalities. 40 procedures to be obtained on mentoring sessions with expert supervision in small practical training groups. This will include DOPS (Direct Observation of Procedural Skills) - supervised learning and assessment of procedural skills. Gained throughout practical training days.

Theoretical Training

Access is provided to an extensive library of online learning materials based upon key learning components highlighted by the JCCP and OTHM, literature papers, current evidence, guidelines and forums. Theoretical learning and training videos relevant to the learning objectives of the course, including references to other literature and case studies. Material designed and written exclusively by medical professionals.

Academic Portfolio

Along with delegates' own research and completion of theoretical training, there will be a requirement to complete an academic portfolio comprising a critical literature review, a clinical health, safety and welfare assignment and a bank of short answer questions.

Practical Training

Foundation and Advanced training days in addition to focused mentoring sessions and a clinical development day to complete your portfolio. Masterclasses including Complications, Tear Trough and Lip Augmentation masterclasses.

E-LEARNING AND ACADEMIC PORTFOLIO

(80 CPD Points)

This stage of the Level 7 Diploma comprises E-learning materials, short answer questions, a clinical health, safety and welfare assignment and a critical literature review. There are 7 E-learning modules to be completed

Unit 1	Anatomy, Pathophysiology, and Dermatology for Aesthetic Injectable Therapies.
Unit 2	Medical Assessment, Consultation, and Image Recording.
Unit 3	Aesthetic Injectable Therapies for Facial Treatments.
Unit 4	Aesthetic Injectable Therapies for Non-Facial Treatments.
Unit 5	Clinical Health, Safety, and Welfare.
Unit 6	Critical Literature Review.
Unit 7	Values, Ethics, and Professionalism in Clinical Practice.

Aesthetic Guidelines & Protocols

The E-learning modules available are designed to provide you with a comprehensive background into aesthetic medicine. In conjunction with the syllabus and the up to date aesthetic guidelines and protocols - these will enable you to structure your answers to your assigned short answer questions, your clinical health, safety and welfare assignment, and your critical literature review. The supplemental papers and your own reading and research will also be important in completing these theoretical competencies.

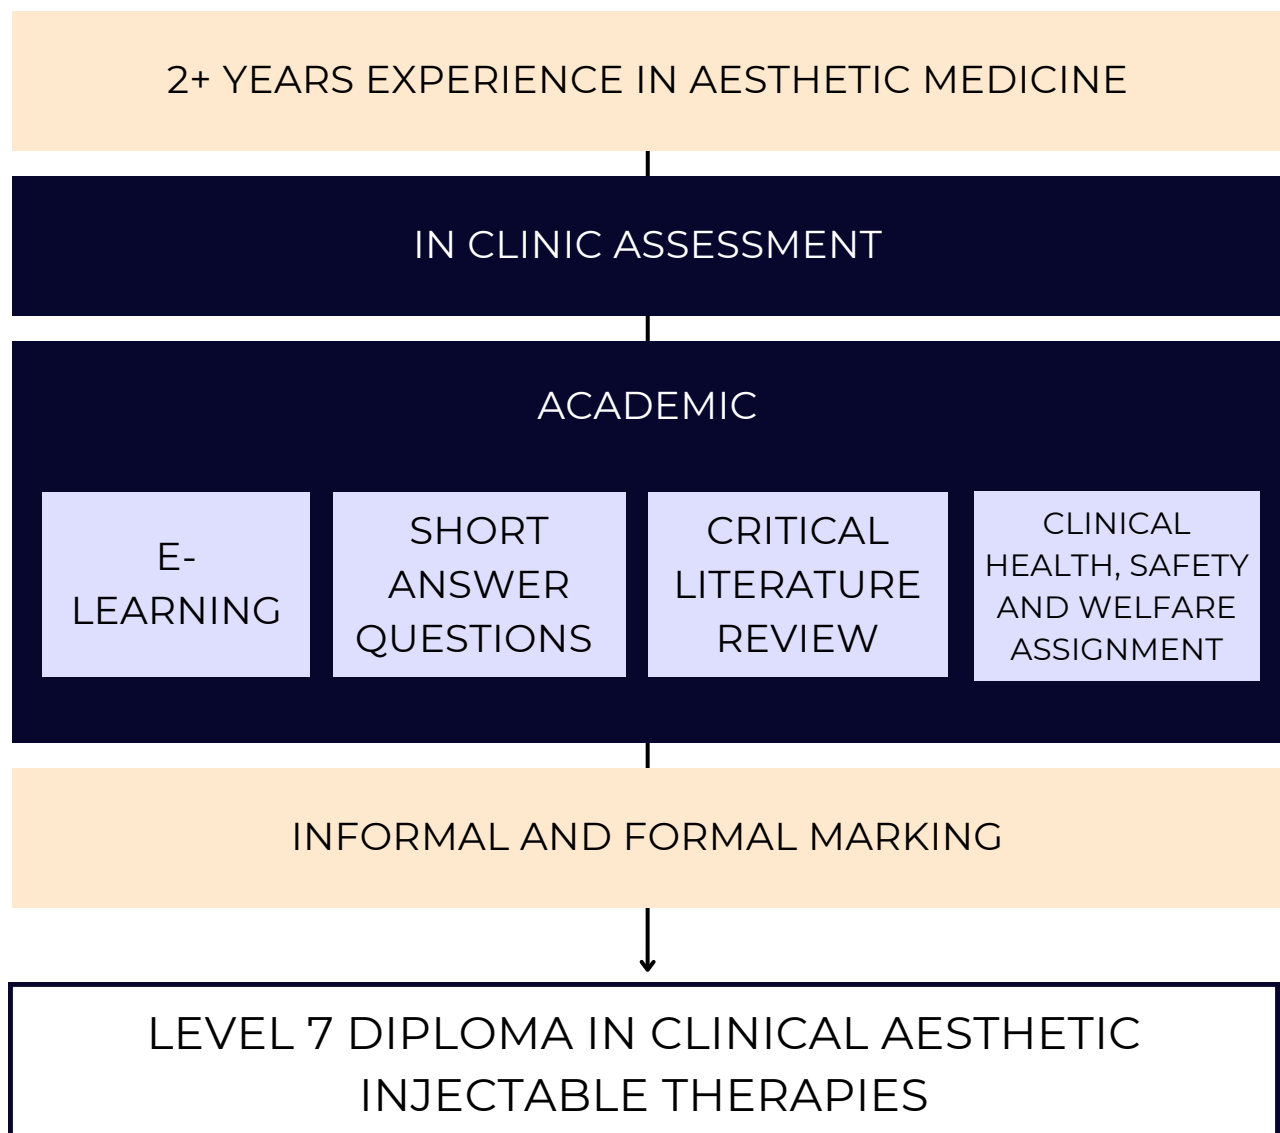

They are designed to be accessed from your own personal devices, in your own time, to fit around your busy family and work-life schedules.

THE L7 FAST TRACK

Should you already be an experienced practitioner looking to gain Level 7 accreditation, it may be possible for you to undertake this option. Fast Track is a method of assessment (leading to the award of credit) that considers whether candidates can demonstrate that they can meet the assessment requirements for a unit through knowledge and understanding, or skills they already possess, and therefore need not develop through a course of learning

Fast Track is accepted for most components of the Level 7 Diploma, subject to satisfactory evidence of recognised prior clinical experience and theoretical understanding. Contact our team to discuss your experience and requirements in more depth

STEP 3: UP-SKILLING

UP-SKILLING COURSES

Step 3 of our UPP allows you to build on core training. Access to our most popular courses to allow you to develop and hone your skills into the most sought after treatments in aesthetics. These courses in combination with our complications masterclass allow you to build your aesthetics career with confidence in your techniques, knowledge and treatment deliverables to your patients.

- ④ Lip and perioral Augmentation Masterclass
- ④ Tear Trough Masterclass
- ④ Complications Masterclass

Learn more about each masterclass on the following pages.

Step 3 Up-Skilling (Part 1) - Lip and Perioral Augmentation Masterclass

*Expert training in one of
aesthetics sought after
treatments.*

The Lip and Perioral region can be challenging to treat. A comprehensive understanding of the anatomy and ageing process are vital.

This Masterclass is a focused training experience designed to empower you to devise unique treatment plans and deliver beautiful outcomes to suit each individual.

During the masterclass, you will learn how to undertake a refined and focussed assessment, detailed lip and perioral anatomy, as well as the academics of lip augmentation and various balancing ratios relating to age, gender, and ethnicity.

We also cover complications avoidance and management, such as bruising and necrosis; as well as guidance on the use of Hyaluronidase.

The Acquisition Aesthetics Lip and Perioral Augmentation Masterclass will give delegates access to our signature lip techniques, allowing injectors to acquire the secrets to natural-looking volume, beautiful definition, and how to achieve a soft and hydrated finish.

You'll learn how to create beautiful lips that work in harmony with the rest of the face – one of the keys to enhancing overall attractiveness.

Lip Masterclass FAQs

When can I complete this stage?

Following completion of your Core Training Step 1 UPP.

Time frame?

1 day practical training with accompanying online learning and training videos

What do I need to do to complete this stage?

Choose from a variety of dates & attend.

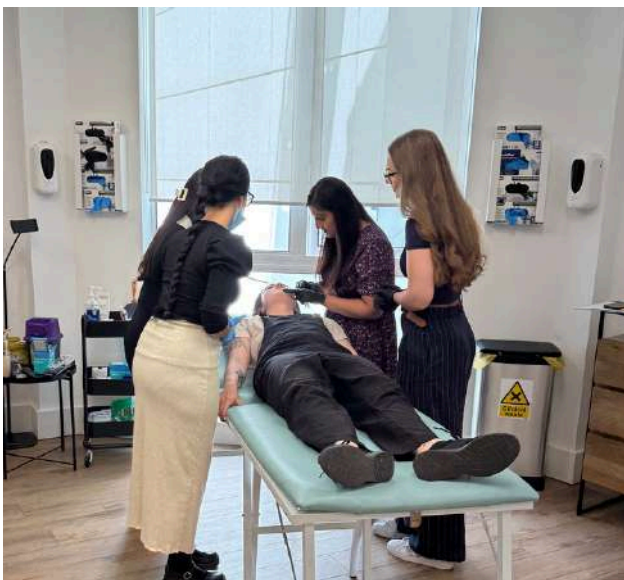

Step 3 Up-Skilling (Part 2) - Tear Trough Masterclass

Advanced and dedicated training in the complex periorbital region.

With just 8 delegate spaces, a spot on this bespoke Masterclass will give you access to our expert trainers covering advanced facial and ocular anatomy, as well as how to diagnose and identify causes of tear trough deformity.

You will become familiar detailed periorbital anatomy and midface ageing, perfect the techniques required for the most effective treatment of this region and an understanding of how to manage complications.

Our experienced faculty are looking forward to sharing the secrets to mastering this highly complicated, yet highly coveted procedure.

As a training academy, we pride ourselves on our responsiveness to delegate need. We received an overwhelming number of requests from both new and existing delegates for focused training in the art of tear trough rejuvenation.

As such, we have now developed and launched our long-anticipated Tear Trough Masterclass, the only course of its kind in the UK.

Tear Trough Masterclass FAQs

When can I complete this stage?

Following completion of your Core Training Step 1 UPP.

Time frame?

1 day practical training with accompanying online learning and training videos

What do I need to do to complete this stage?

Choose from a variety of dates & attend.

Step 3 Up-Skilling (Part 3) - Complications Masterclass

Equipping and supporting our delegates with identification and management of complications.

This focused online masterclass delivers robust training on the anatomy of complications, including advanced facial anatomy, anatomical layers, and danger zones; as well as recognition and diagnosis of complications.

Delegates will take an in-depth look at how complications occur, the data and literature within this sector, alongside treatment for both toxin and dermal fillers complications.

A comprehensive study of Hyaluronidase rounds off the session: indications for use, reconstitution, a protocol for administration, and ancillary treatments, alongside enlightening case examples to cement learning.

We believe knowledge and preparedness are key to effective complication avoidance and management.

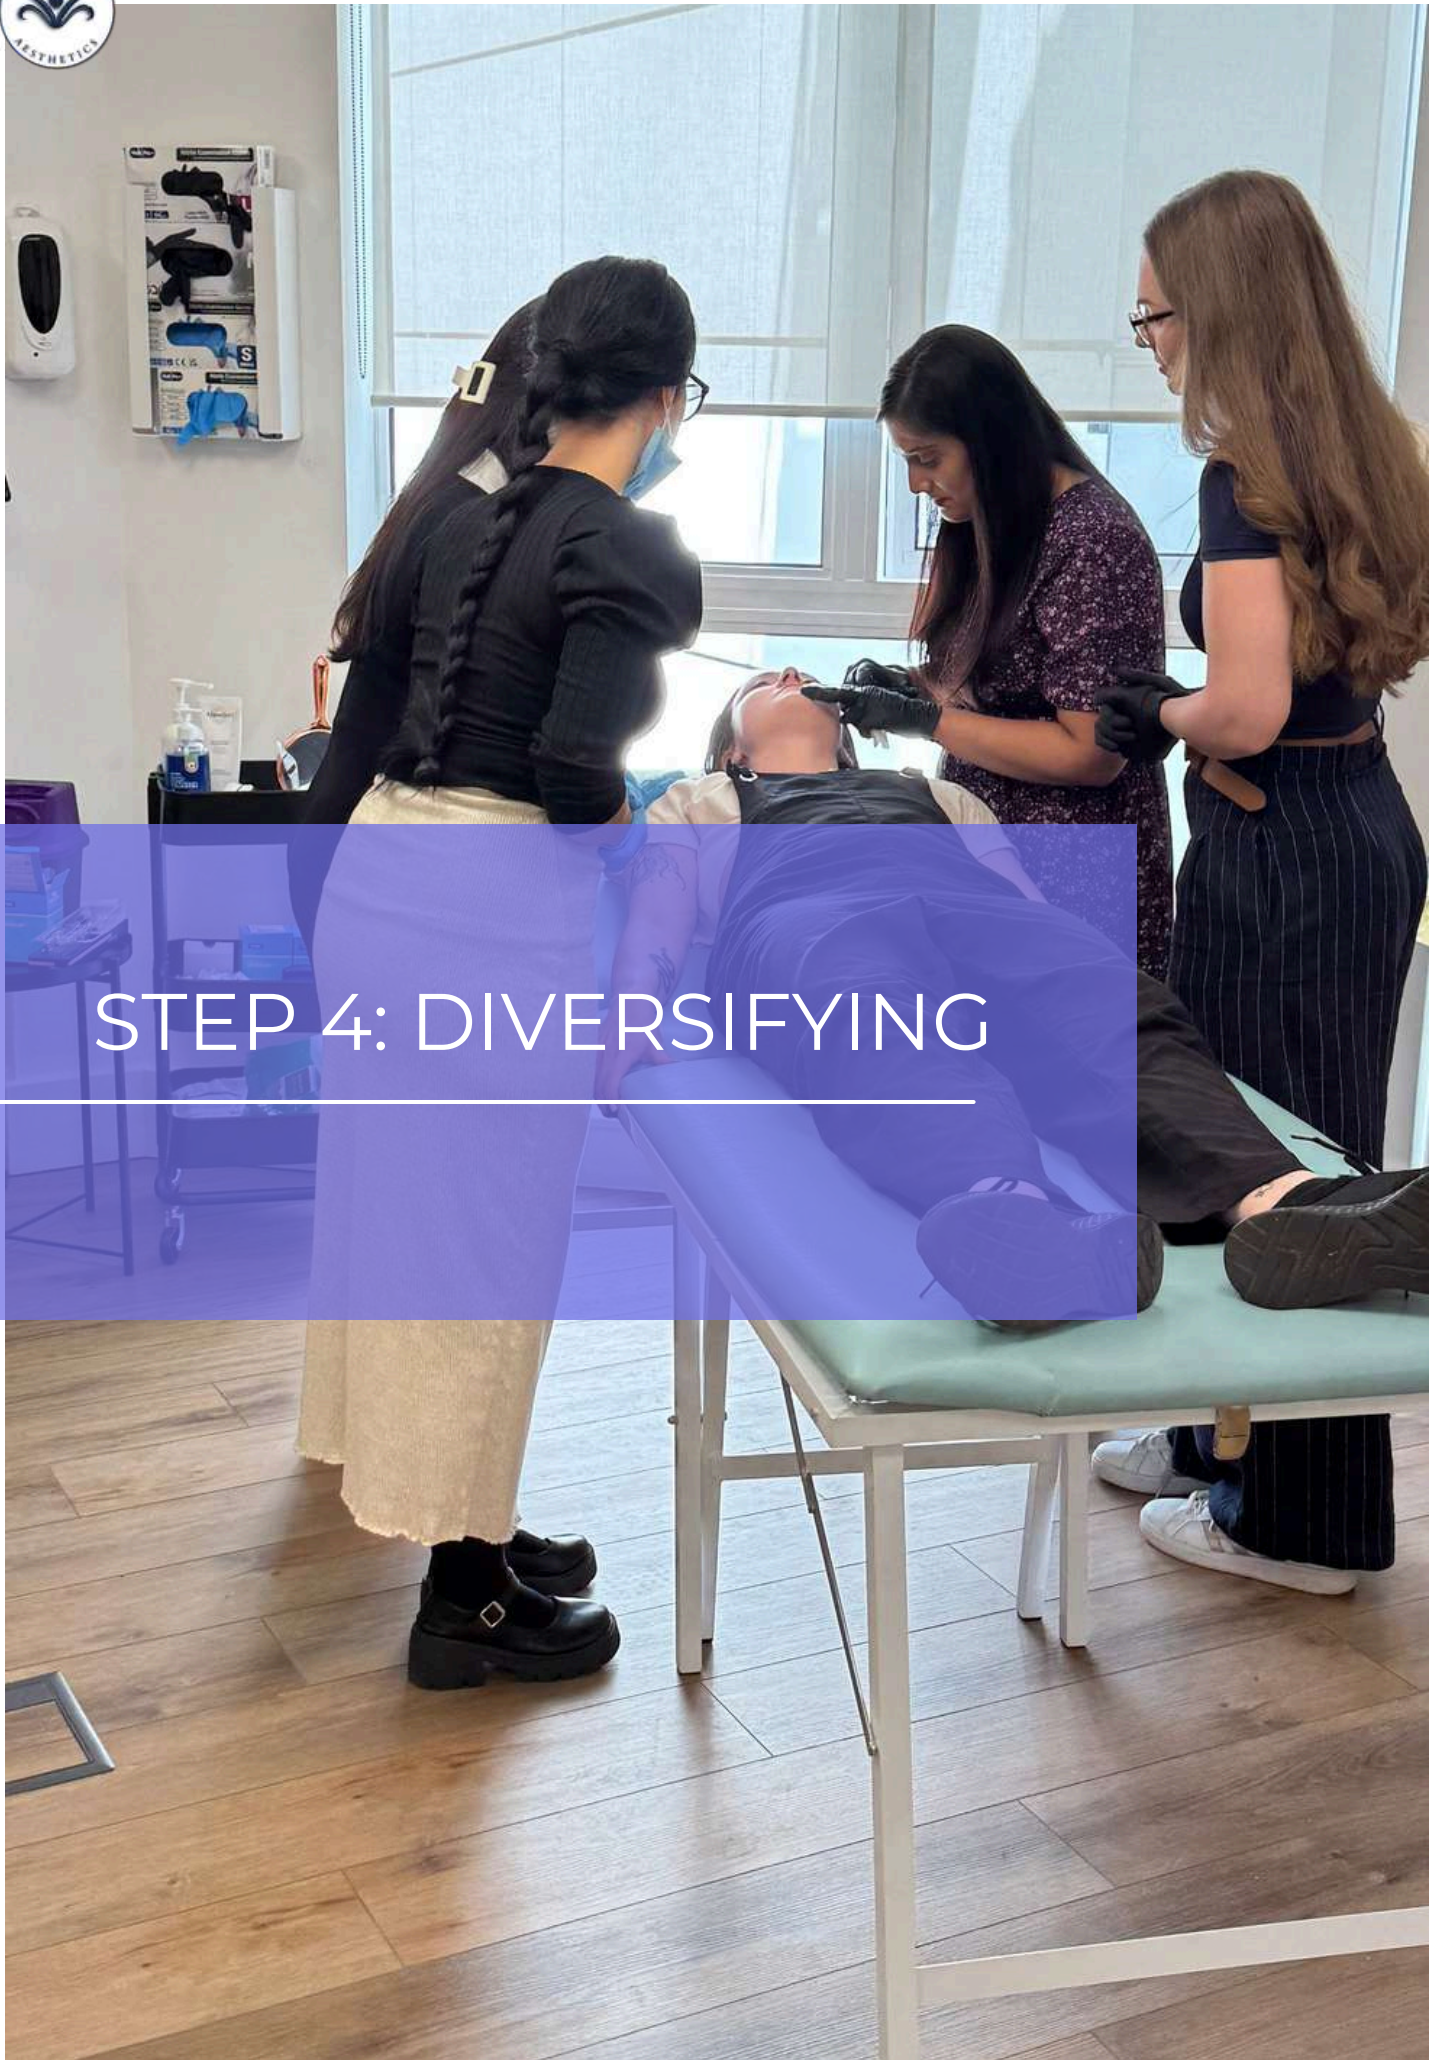

Our bespoke Complications Masterclass ensures you have all the necessary skills to manage any unexpected or undesirable outcomes whilst treating patients and will give you the tools to act quickly and confidently.

Complications Masterclass FAQs

When can I complete this stage?
Following completion of your Core Training Step 1 UPP.

Timeframe?
8 hours of CPD online e-learning

What do I need to do to complete this stage?
Learning materials from this course are provided online and can be completed at your own pace.

STEP 4: DIVERSIFYING

DIVERSIFYING COURSES

Step 4 of our UPP helps practitioners to diversify their treatment offering - resulting in a more holistic and well-rounded offering for your patients. As the aesthetics industry has developed, so has the demand for holistic therapies that do not rely on neurotoxin or dermal fillers.

- Microneedling & Exosomes
- Polynucleotides
- Advanced Sculptra and Skin Boosters

Collectively, these treatments form our [Cosmetology training bundle](#). Learn more about each course on the following pages.

SkinPen
BY CROWN AESTHETICS

EXO | E™

Step 4 Diversifying (Part 1) - Microneedling & Exosomes

Expert training in regenerative treatment for cell and tissue repair.

Microneedling with exosome application is a cutting-edge aesthetic treatment that leverages the science of cell regeneration and tissue repair. During the procedure, the provider first performs a microneedling treatment to create micro-channels in the skin. A serum containing powerful growth factors and other key proteins is then applied, allowing the exosomes to be absorbed deep into the skin through these channels.

Microneedling with exosome training is particularly effective in rejuvenating the skin around the eyes, face, and cheeks, as well as the back of the hands and the neck and décolletage area. In an aesthetic clinic, this is a wonderful treatment to offer as a standalone therapy or in combination with other non-surgical treatments such as neuromodulator and dermal filler injections.

Master the powerful synergy of **SkinPen** microneedling and advanced exosomes.

This course will train you to use SkinPen to create the perfect canvas for a potent exosome serum, delivering a truly regenerative treatment.

You'll learn to go beyond superficial fixes and provide remarkable improvements in skin texture, tone, and overall youthfulness. Join our SkinPen Microneedling and Exosomes Training Course and lead the way in modern skin rejuvenation.

Microneedling & Exosomes Training FAQs

Following completion of your Core Training Step 1 UPP.

Time frame?

1 day practical training with accompanying online learning and training videos.

What do I need to do to complete this stage?

Choose from a variety of dates & attend.

Step 4 Diversifying (Part 2) - Polynucleotides (8 CPD Points)

Train in one of the aesthetics industry's most popular treatment requests.

Our Polynucleotides Training Programme begins with a deep dive into the theoretical aspects of this groundbreaking solution. Understanding the science of Polynucleotides is fundamental to their successful application in aesthetic procedures.

The heart of our training programme lies in hands-on practical training. Here, you will have the opportunity to apply your theoretical knowledge, gaining proficiency in the application of Polynucleotides for aesthetic procedures.

ameela®

Unlock the secrets of the pioneering Polynucleotide brand **Ameela®** on the Acquisition Aesthetics Polynucleotides Training Course.

Dive into the world of regenerative aesthetic medicine, where science meets beauty, and master the art of delivering natural looking skin rejuvenation with cutting-edge technology and techniques.

1 day practical training with accompanying online learning and training videos

What do I need to do to complete this stage?

Choose from a variety of dates & attend.

Step 4 Diversifying (Part 3) - Sculptra & Skinboosters

*Train in advanced techniques for
Sculptra and Skinboosters.*

Our Sculptra and Skinboosters Masterclass is designed to offer professionals an in-depth exploration into the advanced techniques of skin cosmetology injection treatments.

As you progress through this expert training, you'll benefit from detailed, expert-led demonstrations and substantial hands-on practice for face and body Sculptra, and face and décolletage skinboosters, ensuring you master the sophisticated protocols for optimising patient outcomes.

SCULPTRA®

Explore the utilisation of Sculptra and skinboosters for advanced treatment in your clinic.

You will learn about the science of the products, indications, treatment protocols, patient selection and complications, and how to manage these. We will ensure that you feel comfortable in both reconstituting and injecting different patients with varying pathologies.

Sculptra & Skinboosters Training FAQs

When can I complete this stage?

Following completion of your Core Training Step 1 UPP.
